

BAT TRAILS

Music Symbols (Symbol clues)

Level 1, Sheet 1

Use numbered bat clue trails (at bottom of this sheet) and follow the sequence of music symbols, starting from the matching bat/number. You can only move in single steps up, down, and left and right, no diagonal. With each clue you step your way towards a letter at the edge of the grid. Write each into the answer section as you go. These letters combine to spell the answer to the musical trivia question. To follow trails lead pencil should write over both black print and white paper.
