

Quavers

One *quaver* is worth half a beat in commonly used time signatures

When quavers are alone they have a tail.

When there is more than one together they are grouped with a beam.

Practise drawing some single quavers with tails:

Practise drawing some pairs of quavers:

Circle the incorrectly written quavers:

Complete each of these bars by placing quavers under the *:

Semiquavers

One *semiquaver* is worth a quarter of a beat in commonly used time signatures. Semiquavers have two tails, or two beams.

They are most commonly grouped in 4s - to make up the value of one Crotchet beat. however they can be grouped together with quavers or in other groups.

Practise drawing some semiquavers:

Circle all the semiquavers below:
