wig-gle and jig-gle and gig-gle and squirm! Get your wig-gles out Wig-gle worm!

This song is a good opening song, particularly if you've got a very active class, and you can use this to literally 'get their wiggles out'. Have them initially start sitting on their parents' laps to do this song.

As you do this song you will find a lot more variations in actions can be done. You can do it standing up or sitting down, and a lot more variations.

We have provided a couple of different tracks, so you can extend the song with another repeat if you wish.
