Fly, Fly, up in the air, here we go fly - ing to day!

Use this song in the 'balloons' lesson to let the children 'fly' their balloons in the air. Have them sway their balloon side to side while you sing the first time through, then on the repeat you can have them throw the balloon to their parent, or throw it up into the air and catch it.

Be aware that balloons will go everywhere of course, but as it is only a short song, that will be ok.

This is something you can revisit in other weeks, using balls instead of the balloons, or roll the ball to each child while sitting in a circle, with the music in the background.
