

**Crypto-quote**

Crack the code by replacing each letter with another. For example, if the word “the” was coded as “QPR”, then all “Q”s would turn into “T”, all “P”s would turn into “H” and all “R”s would turn into “E”. Solving the puzzle will reveal a BB King quote describing his performance style and how he switches between singing and playing the guitar.

Hints:

Look for words with one letter. They are most likely “a” or “I”.

The word “sing” appears in the quote at least twice.

Remember the name of BB’s guitar.

“THE” is one of the most common 3-letter words; what are common 2-letter words?

BONUS clue: Change A to L; change Q to D; change C to B.
